Permit to Construct or Modify an Air Contaminant Source Issued Pursuant to Tennessee Air Quality Act

---

Date Issued: November 24, 2015

Permit Number:  
970847P

Date Expires: November 23, 2016

---

Issued To:  
Miracle Ford Inc.

Installation Address:  
1394 Nashville Pk  
Gallatin

---

Installation Description:  
Paint Booth for Painting Automobiles

Emission Source Reference No.  
83-0472-01  
40 CFR Part 63, Subpart  
HHHHHH

---

The holder of this permit shall comply with the conditions contained in this permit as well as all applicable provisions of the Tennessee Air Pollution Control Regulations.

CONDITIONS:

1. The application that was utilized in the preparation of this permit is dated on September 16, 2015 and is signed by James J. Galvin, General Manager for the permitted facility. If this person terminates employment or is reassigned different duties and is no longer the responsible person to represent and bind the facility in environmental permitting affairs, the owner or operator of this air contaminant source shall notify the Technical Secretary of the change. Said notification shall be in writing and submitted within thirty (30) days of the change. The notification shall include the name and title of the new person assigned by the source owner or operator to represent and bind the facility in environmental permitting affairs. All representations, agreement to terms and conditions and covenants made by the former responsible person that were used in the establishment of limiting permit conditions on this permit will continue to be binding on the facility until such time that a revision to this permit is obtained that would change said representations, agreements and covenants.

(conditions continued on next page)

---

TECHNICAL SECRETARY

No Authority is Granted by this Permit to Operate, Construct, or Maintain any Installation in Violation of any Law, Statute, Code, Ordinance, Rule, or Regulation of the State of Tennessee or any of its Political Subdivisions.

NON-TRANSFERABLE

**POST AT INSTALLATION ADDRESS**

2. The permittee is subject to the requirements of 40 CFR 63 Subpart HHHHHH (6H) National Emission Standards for Hazardous Air Pollutants (NESHAPs) for Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources because the facility 1) applies coatings containing chromium, cadmium, nickel, lead, or manganese (target HAPs); OR 2) performs paint stripping that contains Methylene Chloride; OR 3) performs spray application to motor vehicles and mobile equipment.
3. Visible emissions from this source shall not exhibit greater than twenty percent (20%) opacity, except for one (1) six-minute period in any one (1) hour period, and for no more than four (4) six-minute periods in any twenty-four (24) hour period. Visible emissions from this source shall be determined by EPA Method 9, as published in the current 40 CFR 60, Appendix A (six-minute average) pursuant to TAPCR 1200-03-05-.01(1) and 1200-03-05-.03(6).
4. Routine maintenance, as required to maintain compliance with the requirements of 40 CFR 63 Subpart HHHHHH (6H), shall be performed on the air pollution control device(s). Maintenance records shall be recorded in a suitable permanent form and kept available for inspection by the Division. These records must be retained for a period of not less than five (5) years.
5. Fugitive emissions from this source shall be controlled as specified in Rule 1200-03-08-.01. Specifically, no person shall cause, suffer, allow, or permit fugitive dust to be emitted in such manner to exceed five (5) minutes per hour or twenty (20) minutes per day as to produce a visible emission beyond the property line of the property on which the emission originates, excluding malfunction of equipment as provided in Chapter 1200-3-20. Fugitive emissions from this source shall be determined by Tennessee Visible Emissions Evaluation Method 4 as adopted by the Tennessee Air Pollution Control Board on April 16, 1986.
6. Reports and correspondence shall be mailed to the Division of Air Pollution Control at this address:

**Department of Environment and Conservation  
Division of Air Pollution Control  
15<sup>th</sup> Floor, Tennessee Tower  
312 Rosa L. Parks Avenue  
Nashville, TN 37243**

7. This permit shall serve as a temporary operating permit from initial start-up to the receipt of a standard operating permit, provided the operating permit is applied for within thirty (30) days of initial start-up and the conditions of this permit and any applicable emission standards are met.

TAPCR 1200-03-09-.02(3)(b)

8. The permittee must comply with recordkeeping and reporting requirements, as found in the following table:

<b>Compliance Methods for Recordkeeping and Reporting</b>	
<b>Operation</b>	<b>Compliance Method</b>
Recordkeeping	<p>Keep copies of Notifications and Reports, submitted to the Tennessee Division of Air Pollution Control or U.S. EPA, for at least five (5) years with the first two years onsite. These records shall include:</p> <ul style="list-style-type: none"> <li>• Painter training certifications with training dates</li> <li>• Spray booth filter efficiency documentation</li> <li>• Spray gun transfer efficiency</li> <li>• Material Safety Data Sheets (MSDS) of all coatings, thinners, solvents, and other materials used at this source</li> <li>• Annual usage of Methylene Chloride, if applicable</li> <li>• Written copy of Methylene Chloride (MeCl) Minimization Plan if more than one ton per year of MeCl used, as applicable</li> <li>• Deviation and corrective action documentation</li> <li>• Routine maintenance of air pollution control device(s).</li> </ul>
Reporting	<p>In the event there is a change at the business (including meeting Rule requirements), an Annual Notification of Changes report is required by March 1<sup>st</sup> of each calendar year following the calendar year in which the changes or noncompliance occurred. The Annual Notification of Changes report shall include:</p> <ul style="list-style-type: none"> <li>• Statement certifying truth, accuracy, and completeness with name, title, address, telephone, and email (if available) and signature of the owner or operator, or other certifying company official; and a statement of whether the source has complied with all of the conditions of this permit, or an explanation of any noncompliance and corrective actions taken.</li> <li>• Reportable changes occurring to previously submitted notification forms, including Initial Notification, Notification of Compliance Status, and previous Annual Notification of Changes reports.</li> <li>• Deviations from recordkeeping requirements.</li> <li>• Site address of source included in this permit</li> </ul> <p>The Annual Notification of Changes report is required if there are any changes to this source including, but not limited to, the following:</p> <ul style="list-style-type: none"> <li>• information previously submitted in either the initial notification required by § 63.11175(a), Notification of Compliance, or a previous annual notification of changes report submitted under this paragraph, has changed;</li> <li>• deviations from the relevant requirements in § 63.11173(a) through (d) or § 63.11173(e) through (g), of this Rule, on the date of the report will be deemed to be a change, including notification when paint stripping affected sources that have not developed and implemented a written MeCl minimization plan in accordance with § 63.11173(b) used more than one ton of MeCl in the previous calendar year;</li> </ul> <p>An Annual Notification of Changes report is not required if there have been no changes to the source, as described above.</p>

9. This permittee must use the following methods in Tables A and C to comply with this permit:

**TABLE A: Compliance Methods for Spray Application of Coatings containing 6H Target HAPs**

Work Area	Compliance Method
I. Spray booth/ station/enclosure	<ol style="list-style-type: none"> <li>1. Exhaust filters to achieve at least 98% capture efficiency.</li> <li>2. Must have full roof.</li> <li>3. Must have at least three (3) complete walls or side curtains.</li> <li>4. Ventilated so that air is drawn into the booth</li> <li>5. When refinishing motor vehicles or mobile equipment, the work area must be fully enclosed and ventilated at the proper pressure.</li> <li>6. Mobile ventilated enclosures for spot repairs must be fully enclosed with overspray retained and directed to a filter for capture.</li> </ol>
II. Spray Gun(s)	<ol style="list-style-type: none"> <li>1. Must be high-volume, low-pressure (HVL), or</li> <li>2. Electrostatic application, or</li> <li>3. Airless or air-assisted spray gun, or</li> <li>4. An equivalent technology</li> </ol>
III. Spray Gun Cleaning	Must be done so that an atomized mist or spray of the cleaning solvent is not created outside a container that collects used gun cleaning solvent.

**TABLE B: Compliance Methods for Paint Stripping Operations** does not apply; no Methylene Chloride in use

**TABLE C: Compliance Methods for Motor Vehicle/Mobile Equipment and Miscellaneous Surface Coating**

Operation	Compliance Method
I. Mobile Vehicle/ Mobile Equipment and Miscellaneous Surface Coating	<ol style="list-style-type: none"> <li>1. This source must train and certify all painters on: <ul style="list-style-type: none"> <li>• Spray gun equipment selection</li> <li>• Spray techniques</li> <li>• Maintenance</li> <li>• Environmental compliance with the requirements of 40 CFR 63 Subpart HHHHHH.</li> </ul> </li> <li>2. Employee training and certification is required no later than 180 days after date of hire.</li> <li>3. Owners and operators who can show by documentation, or certification, that a painter's work experience and/or training is equivalent to the training requirements are not required to provide the initial training as noted above.</li> <li>4. Painters must complete a refresher course and recertify every five years.</li> </ol>

10. The permittee shall certify the start-up date of the air contaminant source regulated by this permit by submitting

**A COPY OF ALL PAGES OF THIS PERMIT,**

with the information required in A) and B) of this condition completed, to the Technical Secretary's representatives listed below:

A) DATE OF START-UP: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_  
month    day    year

B) Anticipated operating rate: \_\_\_\_\_ percent of maximum rated capacity

For the purpose of complying with this condition, "start-up" of the air contaminant source shall be the date of the setting in operation of the source for the dispensing of product for sale.

The undersigned represents that he/she has the full authority to represent and bind the permittee in environmental permitting affairs. The undersigned further represents that the above provided information is true to the best of his/her knowledge and belief.

Signature		Date
Signer's name (type or print)	Title	Phone (with area code)

Note: This certification is not an application for an operating permit. At a minimum, the appropriate application form(s) must be submitted requesting an operating permit. The application must be submitted in accordance with the requirements of this permit.

The completed certification shall be mailed to the Division at the address listed below, no later than thirty (30) days after the air contaminant source is started-up.

Tennessee Division of Air Pollution Control  
William R. Snodgrass Tennessee Tower, 15<sup>th</sup> Floor  
312 Rosa L. Parks Avenue  
Nashville, TN 37243

Or submit an electronic copy (PDF) of the start-up certification by email to: [Air.Pollution.Control@tn.gov](mailto:Air.Pollution.Control@tn.gov)

As an alternative to submittal of paper copies, the electronically-submitted start-up certification must comply with the specified deadlines as required for a paper copy submittal. A color copy of the document with blue ink signatures is preferred, but a black- and -white submittal is acceptable. The Air Pollution Control e-mail address will send an automatic reply to verify that the electronic submittal was received. If an automatic reply is not received, you may wish to re-send or confirm that the e-mail submittal was received by contacting the Division of Air Pollution Control at (615) 532-0554.
